SMITHA P ANTONY

TECH/TEAM LEAD & SENIOR DEVELOPER

Ruby4, Jairaj Starling, Kunnumpuram, Kakkanad, Kochi, Kerala, India | +91 9847766315
smithafebinkal20.20@gmail.com

PROFESSIONAL SUMMARY

Accomplished Tech/Team Lead and Senior Developer with over 20 years of experience designing, building, and deploying scalable software solutions across full-stack architectures. Passionate about building and supporting micro services-based UI applications using Angular, REST APIs (.NET Core / Java Spring Boot), various SQL databases, and event-driven messaging systems. Recognized for driving technical excellence, optimizing application performance, and translating complex business requirements into high-value software features in fast-paced Agile environments. Self learner on technical changes and good team player experienced with AI tools based application development.

TECHNICAL SKILLS

- ➔ Participated in multiple minimum viable product developments and a few product user acceptance phase.
- ➔ **AI & LLM Integration:** GenAI Application Development, Prompt Engineering, LLM Parsing & Forecasting (Python), AI-Assisted Workflows (Cursor, Claude Extensions, ChatGPT).
- ➔ **Languages & Core:** C#, Java, SQL, TypeScript, JavaScript, Python, HTML5/CSS3.
- ➔ **Frameworks & Libraries:** Angular, .NET Core, Java Spring Boot, Micronaut, .NET MVC, React, Next.js, Vue, jQuery, DevExtreme, PrimeNG, Tailwind CSS.
- ➔ **Databases & Event Messaging:** MS SQL Server, PostgreSQL, Apache Kafka, RabbitMQ, Apache Spark, MQTT.
- ➔ **Cloud & DevOps:** Azure (Certified Architect/Admin), AWS, Docker, CI/CD Pipelines, Git, Bitbucket, Gitea, SVN.
- ➔ **Architecture & Domains:** Microservices Architecture, RESTful APIs, Agile/Scrum, Low-Code Platforms, IoT Analytics, Mainframe (COBOL/CICS).

TECHNICAL INITIATIVES

GenAI Smart Inventory Platform: Mentored an engineering intern to build a full-stack React/Python LLM inventory system featuring sales capture, automated demand forecasting, and Agile sprint execution using AI-assisted IDE tools (Cursor/Claude).

OCR & Document Data Extraction Prototype: Architected an automated business card and credit card transaction scanner that parses unstructured document data using Python LLMs and feeds structured payloads into SQL databases.

AI Healthcare Diary App: Designed and prototyped a clinical patient management diary utilizing AI tools (Whisper audio transcription, Stitch, and Cursor IDE).

PROFESSIONAL EXPERIENCE

JTsi Thapasya (Infopark Kochi)

Team Lead & Senior Developer | 2024 – Present

- • Spearheaded the development of web applications using Angular, .NET Core REST APIs, and MS SQL Server stored procedures.
- • Led OfficeGap low-code platform implementations across multiple clients (JUSA, JIndia, Mother & Child, BioFlorida, PG Website).
- • Integrated WordPress public portals with backend administrative applications via REST microservices to streamline membership, payments, and booking workflows.
- • Performance improvements, angular/dotnet core version upgrades for the main source code across multiple implementations

Expeed Software (SmartCity Kochi)

Tech Lead & Senior Developer | 2019 – 2024

- • Orchestrated the architectural transition and development of Apptor Studio & Runner low-code platform using Angular, Java Spring Boot/Micronaut, PostgreSQL, and AWS.
- • Engineered live cargo tracking modules integrated with Mapbox API and managed Agile sprint boards in Jira for production releases.
- • Architected IoT Konnectware analytics platform using Java, Kafka, RabbitMQ, and Spark jobs for streaming real-time sensor JSON data with Azure hosting.

IDSI Technologies

Software Engineer Level 3 | 2019 (6 Months)

- • Engineered building plan approval workflow applications utilizing C#.NET web components, REST APIs, and SQL Server databases.

Eyenet Vision Systems (Panampilly Nagar, Kochi)

Senior Software Engineer | 2018 – 2019 (1.5 Years)

- • Implemented and maintained ticketing solutions applications using .NET MVC, JavaScript/jQuery, and .NET REST APIs.

Microobjects / Zerone Consulting / Cognizant Technology Solutions

Senior Software Engineer / Project Lead / Associate | 1999 – 2017

- • Built and supported web/mobile backend systems, Jabra gadget sales management apps, and enterprise job content portals.
- • Maintained legacy Mainframe platforms (Cobol, CICS, VSAM) and ASP.NET corporate applications for high-profile clients including Dun & Bradstreet and IMS Health.

EDUCATION

- • **Bachelor of Technology (B.Tech) in EEE** | REC Calicut, Kerala (72%)

CERTIFICATIONS

- • Microsoft Certified: Azure Administrative Associate (AZ-104)
- • Microsoft Certified: Azure Solution Architect Expert (AZ-305)
